AlgalivDuo®

Biostimulant for initial phases and post-stress recovery

FEATURE AND BENEFITS

ALGALIV DUO® contains a mixture of two laminarial algae extracts, *Laminaria digitata* and *Ecklonia maxima*, and complex micronutrients thanks to the algae's organic acids. They are subjected to a physical extraction process to ensure that the functionality of all their components is maintained.

The balanced composition of the extracts in **ALGALIV DUO®** allows the obtaining of an appropriate mix of plant hormones, mannitol, laminarin, vitamins, and nutrients that confers on plants the capacity to recover after stress situations or high energy demands.

In addition, **ALGALIV DUO®** stimulates root growth, favoring the absorption of nutrients and water, and is indicated to increase production, achieving larger fruit size and more uniform ripening.

COMPOSITION

	(%w/w)	(%w/v)
Algae extract *(Laminaria digitata)*	10	11.0
Algae extract *(Ecklonia maxima)*	10	11.0
Potassium (K_2O) water soluble	3	3.3
Boron (B) water soluble	0.05	0.07
Iron (Fe) water soluble	0.2	0.22
Manganese (Mn) water souble	0.2	0.22
Molybdenum (Mo) water soluble	0.05	0.06
Zinc (Zn) water soluble	0.2	0.22

FORMULATION

Liquid solution
Color: Light green
Density (room temperature): 1.08 - 1.12
pH (room temperature): 3.0 - 4.0

RECOMMENDED DOSAGE AND APPLICATION TIMING

CROP	DOSE (L/ha)	DOSE (ml/hl)	APPLICATION
Fruit vegetables	2 - 3	150 - 250	Starting at 4-5 leaves every 15-20 days
Leafy vegetables	1 - 2	100 - 150	Apply starting 15 days after the transplant
Root vegetables	2 - 4	150 - 250	At 30 and 60 days post-emergence
Grapevine, kiwi	2 - 3	150 - 250	In budding and post-setting
Fruit trees	2 - 4	150 - 300	Every 15-20 days from sprouting
Minor fruit crops, Berries	2 - 4	100 - 200	Apply from the start of budding
Tropical crops	2 - 4	150 - 300	3-4 applications throughout the cycle
Extensive crops	2	100 - 150	Throughout the cycle
Ornamental	1 - 2	100	Throughout the cycle
Hydroponic crops	1 - 2 L/ha		Apply throughout the cycle in the nutrient solution

APPLICATION METHODS

ALGALIV DUO® can be applied by foliar spray or irrigation.

COMPATIBILITY

It is compatible with most phytosanitary treatment products. It is recommended to perform a compatibility test in a small volume before applying any mixture with this product.

STABILITY AND STORAGE

ALGALIV DUO® is stable during 2 years from the manufacture date. Keep in a fresh and ventilated place with temperatures below 30ºC.

Do not store for prolonged periods under direct sunlight.

Keep away from children.

Do not eat, drink or smoke while handling this product.

Last update: May 2025.
