## PROPERTIES:

FORMICAO is a calcium-rich nutritional product with high solubility and rapid absorption. The use of FORMICAO helps to improve the structure of cell walls and the functioning and permeability of membranes, preventing the appearance of physiological disorders related to calcium deficiency and improving the quality of the fruits.

The applications of FORMICAO contribute to improving the structure of the soil, especially the clay soils. It helps soil particles aggregate and form a more stable structure, which improves aeration and makes it easier for water to move. FORMICAO is also useful for controlling soil pH

## APPLICATIONS

| CROPS | RATES | | REMARKS |
|---|---|---|---|
| Blueberry | 200 - 250 g/hl | 1.5–2.5 Kg/Ha | Apply every 15 days at pre-flowering, flowering and fructification |
| Avocado | | 1.5–3.0 Kg/Ha | |
| Citrus | | 1.5–3 Kg/Ha | Apply every 15 days at flowering and fructification |
| Onion | | 1–1.5 Kg/Ha | Apply every 15 days at bulb and fructification |
| Vegetables, pepper, tomato | | 1–1.5 Kg/Ha | Apply every 10-15 days at pre-flowering, flowering and fructification |
| Melon, watermelon | | 1–1.5 Kg/Ha | |
